Fig. 4

FIG. 5

A hand-drawn schematic diagram of a rectangular device. The device has a central rectangular area with a semi-circular cutout on its right side. The left and right vertical borders of the device are each marked with three circles, representing fasteners or mounting points. Various components are labeled with handwritten numbers and leader lines:

- 56**: Points to the left vertical border.
- 52**: Points to the bottom horizontal border.
- 54**: Points to the bottom horizontal border, slightly to the right of 52.
- 58**: Points to the semi-circular cutout.
- 62**: Points to the upper-left corner of the central rectangular area.
- 60**: Points to the lower-left corner of the central rectangular area.

Below the main rectangular device, there is a separate, partially drawn component consisting of several concentric curved lines, possibly representing a lens or a sensor array, connected to the main device by a vertical line.
